

Introducing AdvanTex[®] AX20-RT

“Performs like AdvanTex, Installs like a Tank”

AdvanTex[®] - Quality Treatment, at a Competitive Price

Orengo's AdvanTex AX20-RT is a completely pre-packaged “plug & play” AX20 that installs as easily as a septic tank. Its simplified design reduces costs for excavation, installation, and O&M, giving your residential customers AdvanTex-quality wastewater treatment at a competitive price.

3-in-1, Pre-plumbed System

The AX20-RT combines the recirc, treatment, and discharge modules of a standard AX20 into a single, shallowly-buried unit. What's more, there's no recirculating splitter valve to mess with. Instead, a patented baffle with one-way valve performs this function automatically. Plus all interior components are installed and adjusted at the factory. Just hook it up to a tank and go! Easier install, fewer call-backs.

Clear, Odorless, Re-Usable Effluent

The AX20-RT produces the same, great, “re-use” quality effluent produced by all AdvanTex systems: BOD and TSS of 10 mg/L or less. (In fact, it has been approved by NSF as an AX20-equivalent.) So the treated effluent can be re-used for sub-surface irrigation. A responsible, green solution to household water and wastewater needs!

Low Power Costs, Low Maintenance Costs

No blowers. No odors. The AX20-RT is passively vented and uses less than \$2/mo in electricity. And it's easy to maintain with an annual service call. Cleanable filters and media, 20-year pumps. Your customers will thank you.

Reduces Nitrogen Too

Like all AdvanTex Treatment Systems, the AX20-RT reduces nitrogen by 60-70% naturally, or by more than 90% with supplemental processing.

Compact Footprint, Shallow-Bury

The AX20-RT recirculates, treats, and discharges high quality effluent out of a unit that is only 6 ft high and a total of 20 sq ft. And it can be shallowly buried right next to a watertight tank. So it's perfect for small sites and sites with clay or rocky soils.

Ideal for Repair/Replacement of Failing Systems

Many existing septic systems are at the end of their useful life. The AX20-RT can replace a failing system in a fraction of the space. And, if the existing tank is re-useable, at a fraction of the cost.

Comes with 24/7 Remote Monitoring

The AX20-RT comes standard with Orengo's VeriComm[®] Remote Telemetry Control Panel and Monitoring System for affordable, round-the-clock supervision and control. (Non-telemetry panels also available.)

Standard Models and Configurations

AdvanTex® AX20-RT (continued)

Standard Models and Configurations

There is an AX20-RT for both gravity and pump discharge and for cold weather applications. Following is a list of standard models.

- AX20RT-MODE1A
- AX20RT-MODE1A-CW
- AX20RT-MODE1B/10
- AX20RT-MODE1B-CW/10
- AX20RT-MODE1B/30
- AX20RT-MODE1B-CW/30

Other models are available. See nomenclature, below.

Call Orenco at 1-800-348-9843 for an AX20-RT design package or for the name of your local AdvanTex Dealer.
